
WebCT 4.x: My Progress and My Grades

Introduction

My Progress allows you to see the parts of the course that you have accessed, and the number of content module pages visited.

My Progress

When you access *My Progress*, the screen is divided into the following three sections:

- **Student Profile:** contains student name and user ID, first login, last login, total number of accesses, and last page visited.
- **Distribution of Visits table:** contains access counts broken down by parts of the course.
- **Number of Content Pages Visited:** contains the number of different content pages visited and the total number of content pages.

Viewing history of content pages visited

- 1 Next to Distribution of Visits, click **Show history of content pages visited**. The History of Content Pages Visited table appears, containing the page names and the times of access.
- 2 To return to the Distribution of Visits table, click **Show distribution of visits**.

My Grades

My Grades allows you to see your grades in the course. You can see WebCT quiz results, assignment grades, and even non-WebCT components of your grade if your instructor adds these to the WebCT gradebook.
