

**ASSOCIATE OF ARTS DEGREE (AA)**

Gender shapes human consciousness and determines the social, economic, political, and cultural organization of human society throughout history. Students who enter into women's studies will thus be exposed to the historical and contemporary issues of gender. We are committed to providing a setting for students to develop critical thinking and writing skills, the ability to analyze material, the use of abstract thinking, and oral presentations. These skills that will serve the students well in their personal professional and social lives.

**STUDENT LEARNING OUTCOMES - Graduates of this program will have the opportunity to:**

- Demonstrate knowledge of the contributions that women have made throughout history in all aspects of life, sources of their omission from traditional approaches to scholarship and traditional centers of power, and contemporary issues concerning gender and sexual orientation in culture and society.
- Demonstrate knowledge of feminist theories, multidisciplinary perspectives, feminist research methodologies and ethics, global and local activism, and structural and cultural analyses, especially the intersectionality of gender, race, and class.
- Demonstrate the ability to think abstractly, read critically, analyze situations, organize material, write well, and conduct oral presentations, all of which are useful skills that employers welcome.
