

Emergency Medical Services Program

School of Health Sciences

CSN
COLLEGE OF
SOUTHERN NEVADA

Thank you for your interest in the Emergency Medical Services Program. This program offers a step-ladder approach to classes in Emergency Medical Technician (EMT) training. Basic EMT classes have open enrollment to any student 18 years of age or older and provide instruction in basic emergency medical care skills. The EMT-Intermediate course offers advanced training with some advanced emergency medical care skills. The Paramedic Medicine Program* meets or surpasses all national Department of Transportation requirements. At the completion of the three paramedic coursework semesters, the student must take the National Registry Certification Examination. As Nevada's largest college, we offer tremendous resources for your field of study. By designing classes to be small, CSN provides the one-on-one attention helping ensure you have the tools you need to successfully complete this program. Please read through this brochure to help direct you in your next step to become an EMT or paramedic.

The Emergency Medical Services Program offers an Associate of Applied Science Degree, Certificate of Achievement and a Certificate of Completion.
