

MATH 097 Entrance Exam

Any student wanting to establish an initial placement level of MATH 097 must take the MATH 097 Entrance Exam.

Logistics:

- Students will establish an initial placement level by taking the Accuplacer Test, and that level can be raised by taking the corresponding Diagnostic Tests, just as they do now.
- Any student with an existing placement level of MATH 095 who wishes to raise that placement level to MATH 097 must take and pass the MATH 097 Entrance Exam. A passing score on the MATH 097 Entrance Exam will be achieving a score of 80%, or higher.
- Students who have passed MATH 093 course can proceed into MATH 097 without taking the MATH 097 Entrance Exam.
