## Job Description

Optical Laboratory Technicians (OLT's) work in full-service surfacing and finishing laboratories. OLT's manufacture a variety of eyewear working from a prescription and using raw materials. OLT's must be able to work with a variety of manual and computerized machines, complete simple mathematical formulas, and adhere to a high work ethic. OLT's must also have good verbal and written communication skills.

## Career Opportunities

- Wholesale laboratories
- Retail laboratories
- Independent practitioner laboratories
- Outside sales representatives

## Program Description

This Certificate of Completion program is an open entry program, therefore a "Limited Entry Application for Admission to a Health Science Program" is **not** required. Students are required to take 2 courses consisting of 10 total credits. Courses include lectures and laboratory instruction.
