(U.S. Bureau of Labor Statistics) (May 2022)

Program Description

The College of Southern Nevada's Veterinary Nursing Program is 4 semesters in length, and leads to an Associate of Applied Science in Veterinary Nursing. The curriculum consists of 50 credits of professional course work which includes directed clinical practice opportunities, and 24 credits of general education courses. The program is the first in the state of Nevada to achieve full accreditation by the American Veterinary Medical Association. It also has unique affiliations with multiple private institutions and organizations which provides learning opportunities overseen by nationally and internationally recognized veterinary specialists. A graduate of this program will have nationally recognized credentials and may sit for all national and state licensing examinations.

Admission Requirements

The CSN Veterinary Nursing Program is a Limited Entry program. All program prerequisites must be completed by the completion deadline, in order to be eligible for consideration.
