Project Management

BACHELOR OF APPLIED SCIENCE (BAS)

DESCRIPTION

*Admittance into the Bachelor of Applied Science will require a minimum of an associate degree from an accredited institution.

The Bachelor of Applied Science (BAS) in Project Management degree aligns with the Career and Technical Education (CTE) degrees by allowing for a seamless articulation of the Associate of Applied Science programs. The BAS in Project Management degree will be administered in an accelerated structure to meet industry demand.

The Bachelor of Applied Science (BAS) degree in Project Management provides a unique pathway for students to build upon the technical skills and knowledge acquired in attaining an associate degree.

The BAS degree is designed to instill abilities and competence, this degree program focuses on developing student communication, project management skills, and decision making abilities within a broader context rather than a single vocation.

STUDENT LEARNING OUTCOMES

- Analyze and apply the role of the project manager in driving an organization’s key performing indicators within an organization. Conduct planning activities that forecast project costs, completion, quality, and necessary resources.
- Acquire and apply the necessary theoretical management, knowledge, practices, and organizational structural work-flow processes required to be successful in any project management career designation.
- Utilize tools specific to project management, applicable to many industries, that ensure projects are on time, on budget, and within the project’s original scope.
- Develop and apply analytical frameworks, strategic planning skills, and managerial insight to be more effective project leaders and contributors.

PLEASE NOTE - The courses listed below may require a prerequisite or corequisite. Read course descriptions before registering for classes. All MATH and ENG courses numbered 01-99 must be completed before reaching 30 total college-level credits. No course under 100-level counts toward degree completion.
