

Prepare for Microsoft Certifications

– While working on your AAS Degree or Certificate of Achievement

The CIT Department at the College of Southern Nevada offers many courses to help you prepare for industry-recognized certifications. The courses will also fulfill requirements for AAS Degrees and Certificates of Achievement. This document presents AWS certifications and their associated preparatory courses. All courses are 3 credits, unless noted otherwise.

The course material of each class can serve only as a guide to the specific topics covered in the certification exams. Passing these classes does not guarantee that you will pass the certification exams. Additional review and practice will be required to achieve the mastery of the concepts and skills needed to pass the exams.

If you already hold current versions of these industry certifications, you may wish to use them to petition for Non-Traditional Educational (NTE) credit for relevant courses required for AAS degrees or Certificates of Achievement. You will find the specific rules, procedures, and limitations in the online [2024-2025 General Catalog](https://catalog.csn.edu/) (<https://catalog.csn.edu/>):

- Select “Admission Information” in the Catalog Navigation bar
- Select “Alternative Credit Options” from the Admission Information options
- Scroll down to the “Non-Traditional Education (NTE)” section

Refer to the online 2024-2025 Catalog for [Course Descriptions](#) and [Degree Requirements](#).
