
DH 102 Frequently Asked Questions

Q: What is DH 102?

A: DH 102 is a prerequisite for CSN's Dental Hygiene program. As of 2026, this Oral Biology course runs only in the Fall and Spring semesters and is only offered in person on the West Charleston Campus. Per CODA regulations, this class is only able to accommodate a maximum of 20 students per section.

Q: How do I get into DH 102?

A: First, students MUST take BIOL 223 and 224 and pass both classes with a grade of "C" or better. Students may join the waitlist if they are currently taking BIOL 224, however, they must be aware that failure to achieve a grade of "C" or better will result in loss of their spot for that particular semester.

In order to join the waitlist for DH 102, students MUST email the department at Logan-Ashley.Kisner@CSN.EDU. At that time, you will be told your spot on the waitlist and the most likely semester for your enrollment.

Q: When will I know if I've gotten into the class?

A: Upon contacting the department, you will be told your position and the most likely semester for your enrollment. This will be followed by an email once permission has been issued.

If a student vacates the waitlist for whatever reason, the next student in line will be contacted about taking the available seat accordingly.

Q: Can I take CLS 261/262 before taking DH 102? Can I take all 3 classes at the same time?

A: At this time, DH 102 must be taken and passed before a student is allowed to enroll into CLS 261 and 262.

Q: I have more questions that haven't been answered here. Who can I talk to?

A: Additional questions can be directed to Logan-Ashley.Kisner@CSN.EDU. Please note that department AAs are NOT health programs advisors, any questions regarding class schedules, graduation, and application through limited entry should be directed to a health program's advisor.
