

ASSOCIATE OF APPLIED SCIENCE DEGREE (AAS)

This program course of study provides students with the necessary education and skills required by today’s computer networking industry. Instruction includes courses on client/server centric LAN networking, router/switch centric internetworking, as well as operation and administration of high-end web server environments. It provides students with a wide array of training in various functional areas related to computer networking. Completion of this program prepares students for successful completion of a number of industry certification exams, such as CompTia A+/N+, Cisco CCNA, Microsoft MCITP and others. Instruction takes place in a hands-on state-of-the-art lab environment. A Certificate of Completion will be issued by the CET Department for each EET Internetworking concentration completed by the student.

STUDENT LEARNING OUTCOMES – Graduates of this program will have the opportunity to:

- Demonstrate computer hardware/software knowledge and skills.
- Demonstrate basic computer networking knowledge and skills.
- Client/Server concentration students demonstrate intermediate knowledge of MS LAN networking technology.
- Router/Switch concentration students demonstrate intermediate knowledge of internetworking technology.
- Linux concentration students demonstrate intermediate knowledge of Linux System Administration.

Students may elect to graduate using the degree requirements in effect at the time of matriculation, or when they declared or changed major or the current catalog. If a program is official after a student has matriculated, the student may choose the degree requirements of the new program. In no case may a student use a catalog which is more than six years old at the time of graduation.
