PRIVACY STATEMENT

In accordance with institutional policy and the U.S. Family Educational Rights and Privacy Act (FERPA), the College of Southern Nevada (CSN) vigorously protects the privacy of students’ education records. The institution does not release private records of individual students, such as grades and class schedules, without prior written consent of the student.

As permitted under federal law, an exception to the above practice is the release of “directory” information considered to be public in nature and not generally deemed to be an invasion of privacy. At CSN, the following categories are defined as “directory” information: name, participation in officially recognized activities and sports; address; telephone number; weight and height of members of athletic teams; email address; degrees, honors, and awards received; major field of study; college; dates of attendance; date of graduation; undergraduate and graduate status; most recent educational agency or institutions attended; and enrollment status (full-time or part-time). Another exception under the federal law is that CSN is able to share education records, without the students consent, with the following parties or under the following conditions: school officials with legitimate educational interest; other schools to which a student is transferring; specified officials for audit or evaluation purposes; appropriate parties in connection with financial aid to a student; organizations conducting certain studies for or on behalf of CSN; accrediting organizations; to comply with judicial order or lawfully issued subpoena, provided CSN makes a reasonable attempt to notify the student in advance of compliance; appropriate officials in cases of health and safety emergencies; and state and local authorities, within a juvenile justice system, pursuant to specific state law.

Students have the right to request non-disclosure of directory information. If they do not restrict release of this information, it is probable that the information will be released or disclosed. CSN uses directory information for non-commercial, educational purposes, such as to mail notices to students about changes in policies, services, or opportunities. Directory information may also be provided for commercial purposes to businesses affiliated with the institution, honor societies, the alumni association and foundation, or other individuals for purposes that may be beneficial to students. The institution exercises discretion in responding to requests for directory information and may or may not provide such information when requested, depending on the intended purpose of the request. The institution does not sell or rent student information for a fee.

It is important to consider carefully the potential consequences of restricting the release of directory information. If a student restricts release for non-commercial educational purposes, the institution will be unable to place the student’s name in publications such as honors and graduation programs; to confirm graduation and dates of attendance to potential employers; to verify enrollment with organizations such as insurance companies; or to send notifications about specialized scholarships without the express written authorization of the student.

If, after due consideration, you wish to restrict the release of directory information, complete this form before the end of the first six weeks of the fall or spring semester and submit it to the Office of the Registrar. This directive will apply permanently to your record until you choose to reverse it by submitting a written authorization. Select one of the following three non-disclosure options:

- Do not disclose directory information for commercial purposes. (C)
- Do not disclose directory information for non-commercial (educational) purposes. (E)
- Do not disclose directory information for either commercial or non-commercial purposes. (N)

**Registration Information**

If you are a first-time CSN student, you need to be admitted before you can enroll in classes. Go to www.csn.edu/prospective/index.asp to “Follow Your Own Path to Success”. If it has been more than two years since you took a CSN class, you will need to reapply via MyCSN. Continuing students use MyCSN to enroll in classes.

**Adding a Class**

You may add classes anytime during the published registration period. Late starting classes may be added using MyCSN until the published start date of the class. Written permission of the division offering the class is required to add any class after the registration period or after the start day of the class. If you add classes or register late, you become immediately responsible for the fees for these classes and should be aware that you may not be eligible for any refunds if you drop from these classes.

**Dropping Classes**

You may use MyCSN to drop classes, please refer to the Catalog/Schedule/Calendar web page for all other registration deadlines. Short-term and intensive classes must be dropped before the published last day of the class. Unless the class is officially dropped, you are responsible for the fees and the instructor may assign a failing grade. It is important that you verify the accuracy of your enrollment schedule and fees due anytime a change is made.

**Full Class Registration Procedures**

If you discover the class you want to take is full, the following steps are suggested:

- Keep trying (someone who has already registered for the class may decide to drop).
- Wait until the first day of registration after the purge (when all students who have not paid for their classes are dropped) and attempt to register again.
- Try again during late registration.
- Contact the instructor prior to the start of classes.
- Obtain Permission to Enroll in Full/Late Registration Class Form from the Office of the Registrar.
- Attend the first day of class and ask the instructor for permission to add the class.
- For Online courses refer to the CSN Online Campus.

**Full Class Registration Procedures**

If you discover the class you want to take is full, the following steps are suggested:

- Keep trying (someone who has already registered for the class may decide to drop).
- Wait until the first day of registration after the purge (when all students who have not paid for their classes are dropped) and attempt to register again.

**Fall 2013 Important Dates**

**Biology Courses**

Please note the following registration restrictions:

BIOL 223, BIOL 251, and/or BIOL 251G sections for Fall 2013 will only be available during priority registration beginning May 1, 2013 - May 19, 2013 at 5:00 PM for currently enrolled students only.

To register for BIOL 223 and/or BIOL 251 you must have completed BIOL 189 with a grade of "C" or better, prior to May 1, 2013.

To register for BIOL 251G you must have completed BIOL 196 with a grade of "C" or better prior to May 1, 2013.

Registration for BIOL 223, 251, 251G will be closed from May 20, 2013 through May 27, 2013 so students that do not have priority registration will have to wait until May 28, 2013 at 8:00 AM.

Remaining seats will be made available through Online Registration only beginning May 28, 2013 at 8:00 a.m.

Students must enroll in both lecture and lab concurrently.

Please review the 2013-2014 Course Catalog for prerequisite and placement exam information.

Fee & Payment Information

For tuition and fee due dates see the Office of Registrar Semester Calendar. After the tuition due date if payment is not made the same day as registration then classes can and will be dropped daily. Also in MyCSN if you have paid for all classes by the tuition due date and then add another class, you must pay for this additional class the same day as registration before midnight or you will be dropped from ALL your classes even if you have paid for some of the classes. A payment plan without any payment or partial payment for the total fees due WILL NOT hold classes.

Fees, tuition and other charges are subject to change without notice. Notwithstanding currently posted tuition and fees, all fees, tuition or other charges which students are required to pay each semester are subject to increase by action of the Board of Regents at any time before the commencement of classes (primarily due to budgetary shortfalls). The amount you are charged at the time of registration is not a final bill and may be increased. You will receive a supplemental invoice for any additional amounts which the Board of Regents may impose. Fee changes put in place less than 30 days before commencement of classes will not be subject to late fee penalties.

For a detailed listing of tuition and fees go to www.csn.edu/pages/629.asp.

Methods of Payment

We accept cash, checks, money orders, debit and credit cards. Effective Fall 2011 in MyCSN we will accept echecks as well. Also debit and credit cards must be paid online at MyCSN Self Service. Make checks payable to “Board of Regents”.

Refunds

If you drop a class, the amount of tuition refunded is based on dates of the semester for full-term classes and the number of times the class has met for summer and intensive classes. Refunds are not based on the attendance of a particular student. For more information see the refund policy. Students seeking a refund may begin the process by filling out the Student Appeals Petition Request and returning the form to the Office of the Registrar with the required documentation.

90678  HEND4002  F  06:00 PM-09:00 PM  Henderson Bldg A  111  Speece
AC 120 AIR CONDITIONING DUCT WORK FABRICATION 3 CREDITS
This course covers basic duct work fabrication, as it applies to the Air Conditioning industry. Areas covered include cutting, computing size requirements, plenums and straight fittings.
90698 HEND4001 F 06:00 PM-09:00 PM Henderson Bldg A 110 Putman

AC 198 ST: CUSTOMER SERVICE 1 CREDIT
This course introduces a methodical approach to problem resolution for HVAC service professionals (dispatchers, technicians, owners). It is also designed to contain, qualify and correct various problems with good and bad outcomes. This course instruct students to focus on their communication skills prior to using technical expertise.
90679 CHEY2002 Sa 01:00 PM-03:00 PM Cheyenne 1239 Soukup

AC 198 ST: LOW PRESSURE BOILERS CTRL 3 CREDITS
This course prepares students for all necessary operations and boiler preventative maintenance procedures for employment in central plant operations. Subjects to be covered include operation, safety, water treatment, control devices used with hot water boilers, low pressure boilers and power boiler systems.
90695 HEND4001 Sa 08:00 AM-11:00 AM Henderson Bldg A 110 Staff

AC 198 ST: ADVANCED REFRIGERATION 1-5 CREDITS TEC
Topics covered include gas heat, air conditioning, heat pumps, air distribution. Advanced installation and service techniques will be covered. Preparation for certification test will be covered. 50% of class will be online.

BIOL 113  LIFE IN THE OCEANS  3 CREDITS
An introduction to the environment and inhabitants of the sea.

BIOL 121  HUMAN NUTRITION  3 CREDITS
Description of the nature and role of carbohydrates, lipids, proteins, water, vitamins and minerals in the human body. Energy relationships and various controversies in nutrition are examined, as well as relationships between nutrition, health and disease.

BIOL 189  FUNDAMENTALS OF LIFE SCIENCE  4 CREDITS
Survey of contemporary biology topics including biochemistry, cell structure and function, cellular metabolism, physiology, and genetics. For Health Science majors who require biology as part of their professional career preparation.
A study of the basic characteristics of living systems including the chemical and physical structure of cells, classification of living organisms and principles of genetics, ecology and evolution. This course is designed for science, biological science and preprofessional majors.

BIOI 196 PRINCIPLES OF MODERN BIOLOGY I

4 CREDITS

BIOI 197 PRINCIPLES OF MODERN BIOLOGY II

A survey of major groups of organisms presented in an evolutionary context, including natural selection, biodiversity, structure and function, reproduction, physiology, and ecology. Prerequisite BIOI 196.

BIOI 220 INTRODUCTION TO ECOCOLOGICAL PRINCIPLES

3 CREDITS

A detailed study of the anatomy and physiology of human cells and tissues and the integumentary, skeletal, muscular and nervous systems. Designed for allied health majors. Prerequisite: Grade of “C” or better in BIOI 189.

BIOI 223 HUMAN ANATOMY AND PHYSIOLOGY I

4 CREDITS

A study of the anatomy and physiology of human cells and tissues and the integumentary, skeletal, muscular and nervous systems. Designed for allied health majors. Prerequisite: Grade of “C” or better in BIOI 189.
Topics include the circulatory, respiratory, digestive, urinary, endocrine and reproductive systems. This course is designed for allied health majors. Prerequisite: BIOL 223.

BIOL 224 HUMAN ANATOMY AND PHYSIOLOGY II 4 CREDITS

A detailed study of the anatomy and physiology of the human body. Topics include the circulatory, respiratory, digestive, urinary, endocrine and reproductive systems. This course is designed for allied health majors. Prerequisite: BIOL 223.

Prerequisite: Grade of “C” or better in BIOL 196.

BIOL 251 GENERAL MICROBIOLOGY 4 CREDITS

Survey of the distribution, morphology and physiology of microorganisms in addition to skills in aseptic procedures, isolation and identification. Topics in microbial genetics, human disease and immunity are also explored. Recommended for all allied health and preprofessional majors. Prerequisite: Grade of “C” or better in BIOL 189.

CISCO 120  CCNA INTERNETWORKING  4 CREDITS
FUNDAMENTALS
This is a networking fundamentals course that introduces students to the architecture, structure, functions, components, and models of the Internet and other computer networks. It uses the OSI and TCP layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced.

THE ABOVE SECTION IS A HYBRID COURSE-CLASSROOM AND ONLINE.

CISCO 221  CCNA WAN FUNDAMENTALS  4 CREDITS
This is one of four courses that applies toward the preparation for a CCNA certification. It explains the principles of traffic control and access control lists (ACLs) and provides an overview of the services and protocols at the data link layer for wide-area access. Students learn how to implement and configure WAN protocols. WAN security concepts, tunneling, and VPN basics are also introduced. Prerequisite: Cisco 220.

CISCO 230  FUNDAMENTALS OF NETWORK SECURITY
The Fundamentals of Network Security course is designed to prepare students for certification in this field (Cisco and CompTIA security exams). The course teaches students to design and implement security solutions to reduce the risk of revenue loss and vulnerability. This course combines hands-on experience, instructor-led lectures, and a Web based curriculum for students. The course is an introduction to network security and overall security processes. This course prepares the student for successful completion of the Cisco CCNA Security certification exam. Students taking this course are assumed to have already obtained, through coursework or industry experience, the knowledge required to pass the Cisco CCNA exam.

EMS 173  PARAMEDIC FIELD INTERNSHIP  3 CREDITS
Field internship allowing students to practice and apply advanced life support knowledge and skills. Each student will be a third person on a Paramedic rescue unit and will work directly with a Paramedic preceptor. Grading to be on a Pass/Fail basis. Prerequisite: Completion of CSN Paramedic training to date, local provisional Paramedic Certificate, and six months of 911 transport experience.

EMS 210  EMS INSTRUCTOR  4 CREDITS
An 80-hour program designed for the experienced provider who desires to assist and participate in the EMS education process. Involves learning how to teach adult students the cognitive, psychomotor, and affective domain skills in the EMS classroom. Effective evaluation tools and training in emotional intelligence is also included. Students will participate in a 40-hour mentoring practicum. Prerequisites: One year professional or volunteer EMS experience, demonstrated emotional intelligence and consent of EMS Program Director.

EMS 230  PARAMEDIC ASSESSMENT II  1 CREDIT
This course will allow the participant to apply the information gained from Pathophysiology, Electrophysiology, Pharmacology, Paramedic Fundamentals, Paramedic Technology, ACLS, PHTLS and the Pediatric course in a manner that emphasizes proper patient assessment, the development of a proper treatment plan and implementation of that plan. This course will be tailored to advancing the students understanding of all Paramedic subjects through practical skills scenarios in preparation for EMS 173B. Prerequisite: Current enrollment in CSN Paramedic Program, EMS 130B.

ENGLISH

ENG 92  COLLEGE PREP ENGLISH I  5 CREDITS
Emphasis on college-level reading and writing. Practice in paragraph construction and the introduction to the complete essay. Review of grammar/punctuation skills and sentence structure. Guidance and instruction in integrating reading and writing skills. Prerequisite: Placement Test.

ENG 98  PREPARATORY COMPOSITION  3 CREDITS
Intensive reading and writing course focusing on college-level critical reading and essay writing strategies. This course was designed for students whose ACT or SAT scores indicate that they would benefit from an additional semester of English before beginning their college-level work. Students who successfully complete English 098 with a grade of C- or better will be eligible to enroll in English 100, 101, or 113. Prerequisite: ENG 092 or Placement Test.

Located in Overton on the MVHS campus.
ENGL 100  COMPOSITION ENHANCED  5 CREDITS
A writing intensive course designed to strengthen college-level composition skills, with particular attention to audience, purpose, and context for writing. Students receive extensive background in strategies of planning, drafting, and revising. Research, primary and/or secondary, is introduced as a means by which students can extend their own understanding through the use of outside resources. Additionally, critical reading and thinking strategies are developed. Extra assistance with English writing skills (grammar, sentence structure, usage, and punctuation) is provided. Students who successfully complete ENG 100 with a grade of "C-" or higher will satisfy the ENG 101 requirement and will be eligible to enroll in ENG 102. Prerequisite: English Placement Test or ENG 098 or ESL 139 with a grade of "C-" or higher.

PHO 198  ST: PORTRAITURE FOR  4 CREDITS
THE CREATIVE MIND
From glorified to gritty to diaphanous, The above course is about making portraits of a creative and compelling manner, while using Photoshop in post-production to further enhance the creative aspects of the portrait. Students will need a basic understanding of lighting (either studio or outdoor lighting), and Photoshop. Both the photographer's visual agenda (your ideas of what you want to shoot) and course specific tutorials teaching creative and other special effects specific to portraiture will be used to achieve desired results for each assignment. Assignments will include themes, storytelling, emotionality, intimate, alternative, self, and statement portraits, to name just a few - and all with a twist. Using makeup, props, wardrobe, and thinking way outside the box will be additional tools necessary for exceptionally creative effects.

RDTP 103 INTRODUCTION TO ONCOLOGY 1 CREDIT
An introduction to the clinical institution and the Radiation Therapy Department. Stresses the ethics of the patient/oncologist/therapist relationship, nursing procedures, safety precautions necessary for therapy patients, and the keeping of medical records.

RDTP 105 PRINCIPLES AND PRACTICE OF RADIATION THERAPY
This course addresses the concepts of cancer treatment, focusing primarily on radiation therapy. Methods of improving therapeutic advantages are investigated. Students learn safe and effective use of equipment and accessories along with the rationale for their clinical application. Technical information related to machine development, construction and use are discussed. Students learn about the historical development of radiation generators.

RDTP 125 RADIOGRAPHIC PROCESS 2 CREDITS
This course will provide the student with instruction on the principles of radiation exposure, the processing of films, and the positioning of patients for simulation.

RDTP 150 INTRODUCTION TO RADIATION PHYSICS
Introduction to the fundamentals of physics involved in the operation of radiographic equipment to include units of measurement, matter, energy, mechanics, magnetism, electrostatics, and electrodynamics.

RDTP 202 RADIOThERAPY PHYSICS 3 CREDITS
This course provides a fundamental understanding of radiation physics relevant to radiation therapy. Topics to be included are particle and photon interactions with matter, units and systems of radiation measurements, radioactivity and radiation production.

RDTP 213 RADIATION ONCOLOGY 3 CREDITS
This course provides the student with an understanding of the clinical signs, symptoms, epidemiology, routes of spread, pathology, staging system, and management approaches of the major tumor sites in the body. Topics covered include diagnostic and staging work-up, prognostic factors, decision-making skills for treatment options and treatment results.

RDTP 214 METHODOLOGIES II 2 CREDITS
This course deals with relational and cross-sectional anatomy of the head, thorax, abdomen, pelvis, and representative sections of the extremities. In the laboratory component, students will simulate radiation treatment fields of cross-sectional anatomy using C.T., MRI, SPECT, ultrasound, and PET images. This course is designed to move students from a two- to a three-dimensional view of internal and relational anatomy.

RDTP 215 TREATMENT PLANNING II 3 CREDITS
This course is a continuation of Treatment Planning I. Students will be responsible for accurate three-dimensional treatment plans for lung, brain, abdomen, pelvis and extremity cancers. Planning will include wedges, blocks, beam weighting, off axis, boost fields and special techniques.

RDTP 219 ADVANCED RADIATION THERAPY TECHNIQUES
Continuation of RDTP 214B to provide the student with the advanced concepts of dosimetry, treatment planning, and patient simulation. Various external beam techniques and applications, depth dose data, and summation of isodose curves will be applied to simulation procedures. Modalities of treatment, immobilization, patient set-up, dose measurement and verification are discussed and practiced.

RDTP 230 CLINICAL APPLICATIONS I 1 CREDIT
Patient treatment competencies are discussed and practiced on a simulation machine. Students are introduced to isocenter, depth of treatment, patient localization marks, immobilization devices, patient alignment using lasers.

RDTP 233 CLINICAL PRACTICUM IV 1 CREDIT
Advanced Clinical Practicum stressing practical application of dosimetry competencies under the direct supervision of a medical physicist or dosimetrist. Continuation of advanced patient treatment competencies under the supervision of a Registered Radiation Therapist.

NELLIS

651-4155 Base access is restricted

All civilian students must submit to a background check before a pass will be granted. Passes for the length of the term can be obtained as follows:

• Go to: http://www.csn.edu/nellis/
• Go to: Information And Links and select “Civilian Students Base Pass Request” link
• Fill out the form with name and course information. (Detailed instructions are included)
• Submit application by fax (702) 643-5556, or e-mail at nellis@csn.edu.
• Allow 48 hours for processing and then call (702) 652-3216 to confirm approval of the pass.

Upon approval report to the Nellis AFB Visitor Center for a one time access to obtain a temporary pass.
For questions call (702) 651-4155.

Base access is restricted to the days and times of your class. Your pass authorizes your admittance onto Nellis AFB for the sole purpose of attending classes in building twenty. Access will be terminated upon withdrawal from class or the cancellation of the class.

Students found at any location other than those indicated on their pass, will immediately be removed from Nellis AFB and could be permanently barred from the base. Student should understand that their person or vehicle is subject to search at any time while on base. Students must keep their pass and state issued picture identification card in their possession at all times while on Nellis AFB and will not authorize others to use or borrow it for any reason.

Access to Nellis AFB will be terminated upon course termination, cancellation, or if students fail to follow any procedures in place for the protection of government resources. Additionally, students should understand that if they are removed from Nellis AFB for cause, they have no recourse against CSN or the United States Air Force.

PLEASE NOTE: All civilian passes must be turned in at the end of the term for students to receive a grade for the course. Remember, attending classes on base is a privilege, not a right.

What is the CSN Online Campus?

The CSN Online Campus provides access to a quality, comprehensive teaching and learning experience by offering innovative educational programs, services and lifelong learning opportunities for a diverse population. Online courses are a convenient and effective way to learn if you are SELF-MOTIVATED AND SELF-DISCIPLINED. All Online courses are listed in the printed course schedule and are available online through the College of Southern Nevada’s web site at www.csn.edu. Online sections are identified with a WEB-Online Course designation in MyCSN and a section number beginning with a 1.

How do Online Courses Differ from On Campus Courses?

Online faculty follow the same required curriculum as faculty do for on campus courses. Students must complete the same materials and assignments with similar deadlines as students do in class. Students do have access to course materials 24 hours a day 7 days a week so they can work on the course when it fits their schedule.

Success in Online Courses

Participation in Online courses requires Internet access, computer skills, Internet usage skills and an email address. If you are not familiar with and comfortable using the Internet, then online courses may not be appropriate for you. Online courses may require more time and effort for a student to be successful than traditional on campus classes.

Registration

You may register for courses online at www.csn.edu or on any of the college campuses.

Adding a Course that is Full

If a class is full, you must contact the instructor by email for permission to register for the full class. You can locate the instructor’s email address by going to the CSN Online Directory on the CSN web site. When emailing the instructor please include your first and last name, your NSHE ID, the class name and section number. If the instructor grants permission to enroll in the class, the instructor will forward the information to the eLearning Office for processing. If you register after the semester has started it may take up to 48 hours before you can have access to your course. Payment will be due the day that you add the class.

Online Course Fee

Students will pay a $10.00 per Online Course fee in addition to the technology fee.

Access to Instructor and Course Information

Students will not be able to log into the course until the first day of the semester or the first day the course begins unless specified by the instructor. If the course is not available on the first day of the semester or the day the course is scheduled to begin then the student should contact the Help Desk at (702) 651-4357.

Canvas Tutorials

There are many Canvas tutorials for students that provide step-by-step directions on the main functions of Canvas. You can access the tutorials by clicking the help button once you are logged into Canvas.

When Can and How do I access my Online Course?

Angel courses will be available the first day of the semester or the first day the course begins. Students can log into their online courses by using their NSHE ID as their Canvas password and their CSN email password as their password to Canvas. DO NOT USE A BOOKMARK TO ACCESS Canvas. Students should access Canvas by clicking on the link on the CSN homepage for Online Campus. If you have difficulty logging into Canvas, call the CSN Help Desk at (702) 651-4357.

Interactive Video Courses

Interactive video courses are assigned a classroom and specific time period. There is a separate listing for these courses. Please refer to that section for information on where you go to attend this type of course. Interactive video courses cannot be viewed at a student’s home.

Textbook Information

Textbooks for Online courses can only be purchased at the Cheyenne Campus Bookstore (651-4645) or online at www.efollett.com.

In this course, students will learn how to use Adobe Dreamweaver, CSS and JavaScript to design and create content for web browsers running on mobile devices. Mobile devices refer to the use of Internet-connected applications, or browser-based access to the Internet from a device, such as a smartphone or tablet computer, connected to a wireless network.
### Health Products and Services

The course examines health products and services, advertising, marketing, quackery and government control. Students will become better consumers by recognizing misrepresentation and fraud when it is encountered.

PORTRAIT
This course offers beginning and professional photographers countless opportunities to create dramatic and beautiful photographs. Students will learn aspects of posing people, identifying light, finding the perfect scene, taking urban portraits, and producing heartfelt nightscape with tips to ensure maximum profits.
91020 WEB1002 ARR Web-OnLine Course Chiarappa

**PHO 198** ST: PHOTO SHOP GONE WILD! 4 CREDITS
In Photoshop CS5 Gone Wild, you will learn new wild and exciting image manipulation techniques. Discover hidden tricks, use layering and masking techniques in ways you never dreamed possible, apply new and cool shortcuts, scheme and cheat using filters and rendering – and so much more. The above course is designed for the serious hobbyist/beginning student to the intermediate student who already has a fundamental understanding of Photoshop basics and is looking for new, innovative, and extra creative ways to achieve dramatic and magical digital photographic art.
91021 WEB1003 ARR Web-OnLine Course Chiarappa

**PHO 198** ST: PORTRAITURE FOR THE CREATIVE MIND
From glorified to gritty to diaphanous, The above course is about making portraits of a creative and compelling manner, while using Photoshop in post-production to further enhance the creative aspects of the portrait. Students will need a basic understanding of lighting (either studio or outdoor lighting), and Photoshop. Both the photographer's visual agenda (your ideas of what you want to shoot) and course specific tutorials teaching creative and other special effects specific to portraiture will be used to achieve desired results for each assignment. Assignments will include themes, storytelling, emotionality, intimate, alternative, self, and statement portraits, to name just a few - and all with a twist. Using makeup, props, wardrobe, and thinking way outside the box will be additional tools necessary for exceptionally creative effects.
