PRIVACY STATEMENT

In accordance with institutional policy and the U.S. Family Education Rights and Privacy Act of 1974 (FERPA), the College of Southern Nevada (CSN) vigorously protects the privacy of students’ education records. The institution does not release private records of individual students, such as grades and class schedules, without prior written consent of the student.

As permitted under federal law, an exception to the above practice is the release of “directory” information considered to be public in nature and not generally deemed to be an invasion of privacy. At CSN, the following categories are defined as “directory” information: name, mailing address, telephone number, dates of attendance, full or part time status, degree awarded, major and date of graduation. Another exception under the federal law is that CSN is able to share education records to officials of another school at which a student seeks enrollment or intends to enroll without the student’s prior written consent.

Students have the right to request non-disclosure of directory information. If they do not restrict release of this information, it is probable that the information will be released or disclosed. CSN uses directory information for non-commercial, educational purposes, such as to mail notices to students about changes in policies, services, or opportunities. Directory information may also be provided for commercial purposes to businesses affiliated with the institution, honor societies, the alumni association and foundation, or other individuals for purposes that may be beneficial to students. The institution exercises discretion in responding to requests for directory information and may or may not provide such information when requested, depending on the intended purpose of the request. The institution does not sell or rent student information for a fee.

It is important to consider carefully the potential consequences of restricting the release of directory information. If a student restricts release for non-commercial educational purposes, the institution will be unable to place the student’s name in publications such as honors and graduation programs; to confirm graduation and dates of attendance to potential employers; to verify enrollment with organizations such as insurance companies; or to send notifications about specialized scholarships without the express written authorization of the student.

If, after due consideration, you wish to restrict the release of directory information, complete this form before the end of the first six weeks of the fall or spring semester and submit it to the Office of the Registrar. This directive will apply permanently to your record until you choose to reverse it by submitting a written authorization. Select one of the following three non-disclosure options:

----

COLLEGE OF SOUTHERN NEVADA

☐ Do not disclose directory information for commercial purposes. (C)

☐ Do not disclose directory information for non-commercial (educational) purposes. (E)

☐ Do not disclose directory information for either commercial or non-commercial purposes. (N)

PRINT WISE PRINT MANAGEMENT SYSTEM

Effective the spring 2011 semester, CSN has adopted the Print Wise System to save natural and fiscal resources. Students can print 200 free pages each semester.

The system serves to incite students to “print wise,” to raise awareness of unnecessary printing and reduce the waste of toner and paper products. It is estimated this new policy could save 2.7 million pages in the first year.

Students will begin each semester with a $10 printing credit applied to their account, which will provide for 200 black and white copies at 5 cents a page, or 40 color copies at 25 cents a page. Once that print quota is exhausted, students will need to purchase prints at the same rate by putting money in their accounts online or at any CSN Cashier’s Office. For additional information go to csn.edu/printwise.

1. to identify student records at CSN
2. for registration and course enrollment;
3. to certify attendance and report student status;
4. an assigned C number may be used in the Student Information System (SIS) as an identifier to grants, loans, and other financial aid information. However, the Higher Education Act of 1965, as amended, gives the United States Department of Education (and parties authorized to assist them in administering the student aid programs), the authority to collect your Social Security number for federal student assistance purposes;
5. for recording grade information.

CSN uses social security numbers or “C” numbers for identification purposes. Use of these numbers for identification purposes will facilitate the provision of services and compilation of information necessary to maintain accurate records on applicants and students.

Students who are employed full-time by CSN or who receive federally funded educational aid have to disclose their social security numbers for payroll and other mandatory reporting purposes, but such students have a right to have separate “C” numbers for other identification purposes.

The FAFSA is the primary application used by CSN and many scholarship organizations to calculate the applicant's financial strength.

When we receive your FAFSA, it will be processed by priority and in date order. Pre-registered applicants receive top priority. Student Financial Services will review CSN records to insure Satisfactory Academic Progress Compliance. Visit the Financial Aid website at www.csn.edu/pages/611.asp for detailed Academic Progress Requirements

Student Financial Services will compare CSN’s estimated costs against the applicant's estimated family contribution (EFC) to establish financial need. Our goal is to offer you a combination of scholarships, grants, loans, and work-study awards to assist you with paying your CSN registration fees and textbooks.

The Student Financial Services communicates the most current information to students by email. Make sure to provide your email address to the Registrar’s Office and also check the CSN website frequently.

### NELLIS

**651-5524**

For civilian students attending classes on Nellis AFB a pass is necessary to gain access to on Nellis Air Force Base.

**To obtain a pass students must:**

- Contact the CSN Nellis Office at 651-4155 or 652-5524 no more than 10 business days prior to the start of the semester for sponsorship on base.
- On the day you intend to obtain a base pass, please contact the Nellis office at the above telephone number to schedule your day of arrival.
- You can only be sponsored for base passes Monday through Thursday at 1:00 pm during Nellis registration period. **NO EXCEPTIONS.**
- Stop at the Nellis AFB Visitor Center and a CSN Nellis Representative will meet you and start the process. Make sure you have in your possession a valid Driver’s License, Registration and proof of Vehicle Insurance.

Once sponsored, the student will be issued a temporary 1-day pass by the Nellis AFB Visitor Center staff. The temporary pass will provide admittance on to the base for the sole purpose of coming to the CSN Nellis Office to obtain and complete the paperwork necessary for an extended base pass.

Base access is restricted to the days and times of your class. Your pass authorizes your admittance onto Nellis AFB for the sole purpose of attending classes in building twenty. Access will be terminated upon withdrawal from class or the cancellation of the class.

Students found at any location other than those indicated on their pass, will immediately be removed from Nellis AFB and could be permanently barred from the base. Student should understand that their person or vehicle is subject to search at any time while on base. Students must keep their pass and state issued picture identification card in their possession at all times while on Nellis AFB and will not authorize others to use or borrow it for any reason.

Access to Nellis AFB will be terminated upon course termination, cancellation, or if students fail to follow any procedures in place for the protection of government resources. Additionally, students should understand that if they are removed from Nellis AFB for cause, they have no recourse against CSN or the United States Air Force.

**PLEASE NOTE:** All civilian passes must be turned in at the end of the term for students to receive a grade for the course. Remember, attending classes on base is a privilege, not a right.

What is the CSN Online Campus?
The CSN Online Campus provides access to a quality, comprehensive teaching and learning experience by offering innovative educational programs, services and lifelong learning opportunities for a diverse population. Online courses are a convenient and effective way to learn if you are SELF-MOTIVATED AND SELF-DISCIPLINED. All Online courses are listed in the printed course schedule and are available online through the College of Southern Nevada’s web site at www.csn.edu. Online sections are identified with a DED section number.

How do Online Courses Differ from On Campus Courses?
Online faculty follow the same required curriculum as faculty do for on campus courses. Students must complete the same materials and assignments with similar deadlines as students do in class. Students do have access to course materials 24 hours a day 7 days a week so they can work on the course when it fits their schedule.

Success in Online Courses
Participation in Online courses requires Internet access, computer skills, Internet usage skills and an email address. If you are not familiar with and comfortable using the Internet, then online courses may not be appropriate for you. Online courses may require more time and effort for a student to be successful than traditional on campus classes.

Registration
You may register for courses online at www.csn.edu or on any of the college campuses.

Adding a Course that is Full
If a class is full, you must contact the instructor by email for permission to register for the full class. You can locate the instructor’s email address by going to the CSN Online Directory on the CSN web site. When emailing the instructor please include your first and last name, “C” number, and class name and call number. If the instructor grants permission to enroll in the class, the instructor will forward the information to the eLearning Office for processing. If you register after the semester has started it may take up to 48 hours before you can have access to your course. Payment will be due the day that you add the class.

Online Course Fee
Students will pay a $10.00 per Online Course fee in addition to the technology fee.

Access to Instructor and Course Information
Before the first day of the semester you should do the following:
• Go to the college web site at www.csn.edu and click on the CSN Course Catalog.
• Click on the circle for the appropriate semester.
• Enter as much information as possible about course.
• Click on Search. Scroll down and select appropriate call number and instructor for your course.

Orientation for Online Students
There is a Student Online Learning Experience in every student’s Angel account. The Student Online Learning Experience will provide information on what is involved with being an online student and interactive tutorials for using the main functions of Angel.

Angel Tutorials
There are many interactive Angel tutorials for students to use that provides step-by-step directions on the main functions of Angel. Click here to go to the tutorials.

When Can and How do I access my Online Course?
Angel courses will be available the first day of the semester or the first day the course begins. Students can log into their Angel course by using the last 8 digits of their “C” number as their Angel ID and their CSN email password as their password to Angel. DO NOT USE A BOOKMARK TO ACCESS Angel. Students should access Angel by clicking on the link on the CSN homepage for the CSN Online Campus/Courses. If you have difficulty logging into your WebCT courses you can call the Help Desk at (702) 651-4357.

Interactive Video Courses
Interactive video courses are assigned a class room and specific time period. There is a separate listing for these courses. Please refer to that section for information on where you go to attend this type of course. Interactive video courses cannot be viewed at a student’s home.

Textbook Information
Textbooks for Online courses can only be purchased at the Cheyenne Campus Bookstore (651-4645) or online at www.efollett.com. If ordering
