TECH PREP FOR SUCCESS

EARN COLLEGE CREDITS IN HIGH SCHOOL!

Do you know what the Tech Prep Program can do for you? Tech Prep lets you earn college credit for certain high school courses. The courses are part of technical skill-building programs and are taught at your high school, by your high school teachers, during your junior and senior years.

After graduation, you may continue your preparation for a high-skill, high-wage career and earn an Associate Degree from the College of Southern Nevada. Many students then decide to continue their education and transfer to a four-year college or university to earn a Bachelor's Degree. Whatever your goal, Tech Prep will give you skills to use toward your future career.

IT'S EASY TO DO!

To enroll in the Tech Prep Program, you must:

✦ Be a high school junior or senior
✦ Fill out a CSN Tech Prep Admissions Form available from your high school teacher or online at: www.csn.edu/techprep
✦ Complete an eligible Career and Technical Education (CTE) course at your high school with a grade of A or B and satisfy specific course competencies

COLLEGE OF SOUTHERN NEVADA
